

ATV SPREADER

With a 52" wide wheelbase and 18" x 9.5" pneumatic tires, our SF500 ATV Spreader makes it easy to spread your seed, fertilizer, salt, and any other granular material in any type of terrain. The SF500 comes with a 600lb. capacity hopper that allows for more efficient work with its large payload. It uses a speed sensitive system to evenly distribute and to reduce waste. Spread up to 40' with a 180° spread pattern or 90° spread pattern to the left or right. Built with a heavy-duty frame, durable cast gearbox, and an easy lever control disengage system. These units are available in Stainless or Poly Hopper. Standard is 1 7/8" ball hitch; 2" ball hitch optional.

SF500 SERIES

- Pull type
- Wheel driven
- Adjustable spreading angle right, left, or straight
- Engage, disengage lever
- Wide Wheel base for stability
- Wide pneumatic tires
- 1 7/8" Ball coupler hitch, 2" coupler optional
- Spreader Veins, Spreader Plate and all other major components are Stainless

****CAPACITY MAY VARY DEPENDING ON MATERIAL DENSITY****

SF500TSS
