# ***TUFLINE V RAKE***

## ***High Capacity Carted Rake***

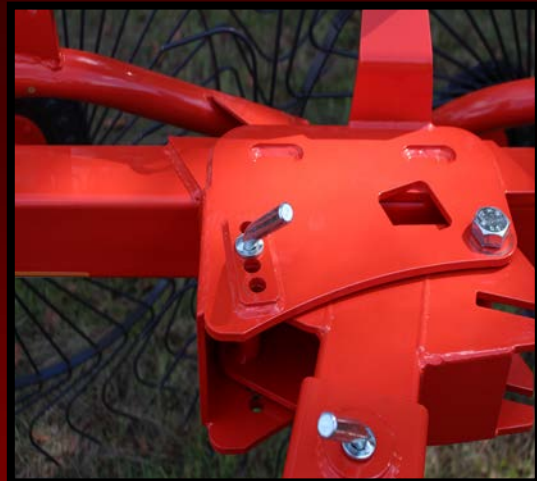

### **Features**

### **Advantages**

<b>Independent rake wheel adjustments</b>	<b>Finger wheels follow the contours of terrain with the result of a perfect raking.</b>
<b>Easy window adjustment</b>	<b>Quick variable windrow adjustments without tools</b>
<b>Rake wheel ground pressure adjustment</b>	<b>Rake wheel ground pressure can be fine-tuned to ensure clean and efficient raking in uneven terrain</b>
<b>Central finger wheel kit (optional)</b>	<b>Enables the middle swath to be raked and fluffed</b>
<b>Adjustment of the swath width</b>	<b>Fast and easy: one tie rod on each side enables the width to be adjusted with out any tool</b>
<b>High Clearance frame type</b>	<b>Maximum flexibility of use</b>

The new TVR High Capacity Rakes by Tufline are heavy built, easy to use "V" style rakes. The TVR is available in 8, 10, or 12 capacity fingered wheels. It is a rake that is heavy built to perform in any type of hay application. The independent finger wheel suspension allows the rake wheels to work together but function on their own. The high capacity rake has various adjustments to allow for the appropriate ground pressure. This gives it the ability to adapt to unlevel terrain or rough conditions. The high capacity frame allows for maximum performance and heavy applications. The lift design enables the finger wheels to pick up in order giving the operator clean ends and quicker turn around. The stability of the frame, the finger wheels ability to adapt to any terrain, and the quick and smooth lift design make the TVR TUFLINE TUFF!!
